**Class starts June 1, 2009 and ends July 22, 2009.**

**Construction Carpentry**

The Construction Carpentry Program is designed to provide students with both classroom and “hands-on” experience. This course includes an introduction to the trades, ARC welding, job safety practices, blueprint reading, concrete and residential framing. Graduates find employment as entrepreneurs, apprentice trainees, installers, or sales associates. Upon program completion students will receive: Scaffold Safety Certification and 10 hours OSHA Construction Certification.

**Introduction to Labor & Trade**
